493 +	0	0	20	-20

This table is only a **guide** that gives an indication of the points exchanged based on the difference between the Ratings of the players.

The actual points exchange will be calculated accurately to 1 decimal point using a logarithm for each individual match.

An expected win/loss is where the Higher Rated player wins. An unexpected win/loss is where the Lower Rated player wins.

Players shown with zero points exchange did not play on the match evening shown
